

## United States Vessel Response Plans

Dear Sirs,

### Non-Tank

Members are referred to the previous [Club Circular No. 10/2013](#) dated October 2013 in which it was explained that the US authorities published their Final Rule addressing Non-Tank Vessel Response Plans in the Federal Register, Vol. 78, No. 189, on 30th September 2013, and all non-tank vessel owners are required to submit their Vessel Response Plan to the US Coast Guard by 30th January 2014.

For the purpose of preparing a Vessel Response Plan (VRP), a non-tank vessel is defined as a self-propelled, non-tank vessel of 400 gross tons or greater that carries oil of any kind as fuel for main propulsion and that operates on the navigable waters of the United States.

Non-tank vessel owners will be required to enter into contracts with oil spill contractors with sufficient response resources and dispersant capability to deal with a worst case discharge and to enter into funding agreements with salvors and marine fire-fighting resources. The requirements relating to salvage and marine firefighting have been dealt with in the earlier [Circular No. 11/2013](#) dated 18th October 2013.

In order to satisfy the spill response requirements, non-tank vessel owners will need to contract with either one of the main oil spill response organisations, Marine Spill Response Corporation (MSRC) or National Response Corporation (NRC). In the past, most International Group (IG) Clubs entered into retainer agreements with both MSRC and NRC in order that non-tank vessel owners could cite either or both of them in their California State vessel response plans. However, it is impractical for the IG Clubs to extend these retainer agreements to deal with the federal vessel response plan requirements and, in future, therefore, non-tank vessel owners will need to contract with either MSRC or NRC directly. Members are recommended to liaise with their QI/plan writers who should be able to assist them in this regard. Both oil spill response organisations have issued spill response contracts which conform with IG guidelines.

Both MSRC and NRC are also able to provide the necessary dispersant capability to enable non-tank vessel owners to comply with the new regulations. MSRC is willing to provide this facility at no extra charge on terms that comply with IG guidelines. NRC is also willing to provide this facility but, in order to do so on terms which comply with IG guidelines, it is expected that they will levy an additional annual charge.

For further details Members may consult the following websites:

MSRC <http://www.msrc.org/>  
NRC <http://www.nrcc.com/>

Contact at MSRC: Judith Roos – Tel (703) 326 5617 – [roos@msrc.org](mailto:roos@msrc.org)

Contact at MPA: Brett Drewry – Tel: (480) 991 5599 – [bdrewry@mpaz.org](mailto:bdrewry@mpaz.org)

Contact at NRC: Tel: (631) 224-9141 - [clientservices@nrcc.com](mailto:clientservices@nrcc.com) (Client Service Group)  
or Bryan Bell (Primary) (631) 259-6664 - [bbell@nrcc.com](mailto:bbell@nrcc.com) and  
Deborah Wick (Alternate) (631) 892-3392 - [dwick@nrcc.com](mailto:dwick@nrcc.com)

## **Tank**

Members are referred to [Circular No. 09-12](#) dated 4th October 2012 in which members were informed of the requirement which became effective in September 2011 for tank owners to cite in their VRPs a dispersant service provider.

Both MSRC and NRC have the dispersant capability. Both introduced addenda to their contracts to provide for this service, and some of the terms of both addenda result in the owners incurring liabilities which fall outside the scope of club cover. However, Members were able to obtain additional cover from the market for such liabilities by contacting the Managers for details.

On 25th November 2013, MSRC informed MPA tank members that their dispersant addendum had been withdrawn in so far as tank members were concerned. Therefore it will no longer be necessary to purchase additional insurance in regard to this addendum. Those Members who have purchased the additional cover on an annual basis should contact their Club managers. With regard to NRC it is possible to opt out of signing the Addendum and thus avoid the exposure to liabilities falling outside the scope of club cover by payment of an additional fee.

## **Tank and Non tank**

All tank and non-tank vessel Members are reminded that, whether they have cited NRC or MSRC in their plans, if calling at Hawaiian ports it will be necessary to cite Clean Islands Council in the VRP as well. The Clean Islands Council contract does not conform with the IG VRP guidelines. Therefore, signing their contract could result in Members incurring liabilities which fall outside the scope of club cover. Members wishing to obtain additional cover from the market for such liabilities can contact the Managers for details.

All Clubs have issued similar circulars.

Any questions with regard to the above may be addressed to Sara Burgess in Gard (UK) Limited – Tel +44 (0) 20 7444 7200, Frank J. Gonynor in Gard (North America) Inc – Tel +1 212 425 5750, Arne Sætra in Gard AS (Tel +47 37 01 91 00)

Yours faithfully,

**GARD AS**

Svein Buvik  
Acting Chief Executive Officer

Providing members and clients with important information in a timely manner is very important to Gard. As a result of the changing ways today's users access information Gard will at some point in the future be distributing future issues of Member Circulars by e-mail only. If you do not already receive our Member Circulars by email you can contact us on [subscribe@gard.no](mailto:subscribe@gard.no) to provide us with your name, company name and email address. Alternatively you can register on our website at [www.gard.no/](http://www.gard.no/)
